2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

La Mirada Academy educates students by fostering global and cultural awareness. Teachers facilitate rigorous, inquiry based instruction and authentic experiences that teach students how to think rather than what to think. Students take control of their learning by constructing meaning and knowledge in order to apply it to a changing world. Our educational program is further enhanced by dynamic instruction through fine arts, additional language, and technology. La Mirada Academy's environment promotes positive and safe physical, emotional, and social well-being. We take pride in our community and value partnerships between home and school.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Grades TK-5

Reading, Writing, Listening, and Speaking

Students receive a standards-based curriculum designed to “help build creativity and innovation, critical thinking and problem solving, collaboration, and communication fulfilling California’s vision that all students graduate from our public school system as lifelong learners and have the skills and knowledge necessary to be ready to assume their position in our global economy.” (ELA CCSS)

Students use a variety of instructional materials in ELA to meet these instructional goals.

English Language Development (ELD)

English Learner students engage in daily ELD lessons that provide challenging English language development skills in alignment to gain English language proficiency. (ELD CCSS)

Math

Students receive a standards-based curriculum designed to provide instruction that focuses on “concepts that are emphasized in the standards so that students can gain strong foundational conceptual understanding, a high degree of procedural skill and fluency, and the ability to apply the mathematics they know to solve problems inside and outside the mathematics classroom.” (Math CCSS) Students use a variety of instructional materials in math to meet these instructional goals.

Social Studies grade level standards are integrated through Benchmark Advance ELA-ELD core curriculum.

Grades 6-12

Reading and Writing: Language Arts classes embody a rich blend of literature and informational text in which students are challenged to build their reading, writing, listening, and speaking skills. The curriculum is based on the California Common Core Standards for English Language Arts and Literacy in History/Social Studies and Technical Subjects (2010), which outlines a progression of expectations for what students should know and can do. Instruction guides students in comprehending text to determine central ideas and arguments and the craft and structure within the text. Students collaborate and share their ideas in conversation and through writing. As students experience increasingly complex texts, they build their college and career readiness capacity.

Math: Students experience mathematics linked across grade levels and aligned to the State’s content standards and framework finalized in 2013. Students develop foundational conceptual understanding along with procedural skills and fluency as they apply mathematics to solve real world inspired problems. Mathematics takes on greater relevance as students learn to think through their problem solving, share their thinking, and examine the thinking of others. A sequence of courses beginning in 6th grade offers students an opportunity to stretch their mathematical skills through high school.

Science: SMUSD has transitioned to the Next Generation Science Standards for California Public Schools adopted in September 2013, and continues to incorporate the California Common Core State Standards in Literacy for Sciences that focus heavily on aspects of reading, writing, and research. SMUSD has adopted the preferred integrated model for grades six through eight, using a phenomena-based approach to instruction. In grade six, the guiding concept from the California Science Framework is that “systems within organisms and between them are adapted to Earth’s climate systems.” Students focus on the interaction between living systems and their physical environment and use physical science to explain processes within each of these systems. The guiding concept in grade seven builds on students’ understanding of systems from grade six: “Natural processes and human activities cause energy to flow and matter to cycle through Earth’s systems.” Students track the cycling of matter and energy in chemical systems, food webs, the water cycle, and the rock cycle. Near the end of the year, students examine how human activities alter these systems. Integrated grade eight builds on the ideas of stability and change introduced at the end of grade seven with the guiding concept: “The processes that change Earth’s systems at different spatial scales today also caused changes in the past.” Students explain different episodes of mass extinction and species diversification during the first three instructional segments and then move to present-day changes at the end of the year. The course begins with students analyzing data about the diversity of species over the last 500 million years, which reveals evidence of several mass extinction events.

Social Studies: Students build their understanding of the human story through historical analysis, focusing on geography and historical interpretation. Students in grade six expand their understanding of history by studying the people and events that ushered in the dawn of the major Western and non-Western ancient civilizations. Students in grade seven study the social, cultural, and technological changes that occurred in Europe, Africa, and Asia in the years A.D. 500–1789. Students in grade eight study the ideas, issues, and events from the framing of the Constitution up to World War I, emphasizing America’s role in the war. SMUSD teachers are incorporating the California History Social Studies Framework adopted in 2016 and the California Common Core State Standards in Literacy for History/Social Sciences that focus heavily on aspects of reading, writing, and research.

School Facility Conditions and Planned Improvements

School Facility Conditions and Planned Improvements

La Mirada Academy opened its doors on August 21, 2018. La Mirada Academy, formerly known as Alvin Dunn Elementary changed names during the 2017-18 school year. The name changing process was a joint effort with the school community, including parents, students, and staff. In October of 2017, the San Marcos Unified School Board unanimously approved the new name. Later in the year, students voted on a new mascot, and the LMA Wolves were established.

We have 52 classrooms with state-of-the-art audio/visual equipment. Our playground boasts two beautiful play structures, one on the Kindergarten playground and one on the upper-grade playground. In addition, we have a gym, band room, locker rooms and kitchen.

Cleaning Process and Schedule

The district governing board has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office and at the district office. The principal works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Maintenance and Repair

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Parents are encouraged to get involved in their child's education. In order to help accomplish this goal, we offer parenting classes, sciencenights, Shadow a Wolf and Family Engagement Days, , and family fun events. Many flexible meeting dates and involvement opportunities are made available for parents to receive information at La Mirada Academy. These include:

- Welcome back Orientation
- Meet the Teacher event
- School Site Council Meetings
- ELAC Meetings
- PTO Meetings
- Family Science Nights
- Principal Coffee Chats
- Open House
- Parent Teacher Conferences

Translators are made available at all meetings. In addition each week a phone call and email is sent home notifying parents of important upcoming events at school. We also make sure our school website is updated on a weekly basis. La Mirada Academy believes in shared responsibility for high student academic achievement and that learning will happen if we have the support, partnership, and involvement of parents and the entire school staff.

Parents may contact our community liaison in the front office for ways to get involved at La Mirada.

2024-25 School Safety Plan

The School Safety Plan was last updated in November 2024. The plan was reviewed with Staff and School Site Council members and approved. The La Mirada Academy Safe Schools Plan has the goal of securing the well-being of our students in the event of any concern that might compromise the well-being of our students. This plan addresses several core safety issues

2024-25 School Safety Plan

to address this goal. La Mirada is home to approximately 952 students. Local law enforcement and city officials were consulted during the writing and approval process to assist the administration in designing safety, disaster, and behavior plan and visit annually to observe our drill routines.

Three essential components were addressed when writing the plan. These include: Assuring a Safe Physical Environment, Assuring an Emotionally Nurturing Environment, and Student Resiliency Skills. In the Safe School Plan there are strategies in place to ensure that student safety is enforced in each of these goal areas. The La Mirada Academy Safe Schools Plan is a working document that helps to create an environment where children can feel secure and grow.

Professional Development

TK-5:

San Marcos Unified School District (SMUSD) is committed to the belief that the strongest predictor of student achievement is the quality of the teacher inside the classroom. In support of this belief, SMUSD is deeply committed to teacher learning and professional development as evidenced by our district mission statement.

San Marcos Unified School District's Mission Statement includes these commitments:

- "Hiring and retaining only the best educators and investing in their success."
- "Providing quality education based on high standards, effective practices, continuous improvement, and innovation."

Every new teacher in our district engages in a rigorous two year training program where the new employee receives 30 hours of professional development on our research-based instructional framework, the Essential Elements of Instruction (EEI). These instructional strategies apply to any curricular area and any grade level. New administrators to the District receive professional learning in this instructional framework as well as the National Institute of School Leadership (NISL).

Our elementary level focused professional learning on Orton Gillingham, Ready Mathematics, Professional Learning Communities, and Synergy. Professional learning was grounded in meeting students' academic and social emotional needs post pandemic. Ongoing training and PLC cycles supported learning recovery interventions in the classrooms and extended learning groups. A refocus on ongoing formative assessments and data driven discussions allowed teachers to provide students with prescriptive academic and social emotional interventions and enrichment opportunities. Teachers who work with students with special needs engaged in ongoing collaboration to implement more inclusive delivery models.

instructional strategies apply to any curricular area and any grade level. New administrators to the District receive professional learning in this instructional framework as well as the National Institute for Instructional Leadership (NISL).

In the 2024-2025 school year, at the secondary level, the district focused professional learning on the continued implementation of state academic standards in English language arts, English development, mathematics, science, and history. Attention was placed on identifying key learnings and integrating common formative assessments in English language arts and math within the instructional cycle. Math teachers were provided the opportunity to engage in Standards for Mathematical Practices. Science teachers were given time to delve deeply into NGSS, aligning and/or creating course outlines and units to the requirements of the new standards.

Various means of professional learning were offered: professional development during the regular workday, school breaks, and after school, and online sessions available for staff to access during times that best work with their schedule. Principals provided staff development during regularly scheduled staff meetings throughout the year. Teachers who work with students with special needs engaged in ongoing collaboration to implement more inclusive delivery models.

Teachers continued to engage in professional development each week as they worked collaboratively during their structured teacher collaboration time (early release Wednesdays for elementary/middle school staff and late start Tuesdays for high school staff). This provided teachers the opportunity to share best practices to meet students' needs.

This table displays the number of school days dedicated to staff development and continuous improvement.
